1. The referent memo dated 21 January which requested that the inter-building conduit system be cleaned by 26 January arrived in our office on 27 January. As you are aware, we have had extreme difficulty in meeting your requirement due to the recalcitrance of the contractor involved.

2. I am happy to report that the contractor responsible for cleaning the conduits began work on 30 January. He will continue to work until the task is completed. We will advise you of our progress and the anticipated completion date for this work.
